SD375

Digital Duplicator

(versatile) (productive) (economical)

The Standard SD375 makes copying and printing easy, fast, and economical. It is the logical choice for an organization that has both demanding printing requirements and respect for the environment. Combining the latest technology advancements with Standard's hallmark reliability, print quality and eco-friendliness, the SD375 will produce years of exceptional performance and cost savings.

♛ STANDARD

SD375 Digital Duplicator

The Standard SD375 is an exceptional digital duplicator. Perfectly designed for high volume, multi-user locations, its impressive array of features and low cost per copy performance makes it the ideal printer for virtually any school or institution. The SD375 truly delivers quality, convenience and economy.

With fast printing speeds of up to 130 copies per minute and unparalleled reliability, the SD375 is ideal for any organization that requires a low-cost, highly-reliable printing solution. Its many advanced features include a glass platen for easy versatile book copying, spot color printing capability, as well as simple to operate computer connectivity options.

Simple Operation

The SD375's easy to read 4-line graphical display keeps the operator informed of key functions including supply level status, image positioning and error conditions. Furthering simplicity and adding to its productivity is fast, clean and easy supplies replacement.

A Friend to the Environment

With its built-in energy save and auto-off programming, as well as extremely low power consumption, the SD375 is truly an environmentally-friendly print device. The simple ink-technology system contained in the SD375 emits no ozone and contains no fusing units. Compliant with RoHS and WEEE standards, the SD375 is truly on-board with preserving the environment.

Unique Built-In Features

Innovative features that enhance the SD375's performance include:

- Large 11 x 17 area platen glass enables printing two letter size sheets/book onto one sheet.

- Enhanced security and economy in Confidential Mode by locking out unauthorized printing without master waste.

- Economy mode to reduce ink consumption.

- Variable speed control allows you to select from 80-130 page per minute printing.

## Print Direct From The Desktop

Enabling digital connectivity to virtually any PC is quick and easy with the SD375's optional PC network controller. Computer connectivity provides printing convenience and superior print quality.

Specifications

With cabinet:	49" x 27" x 44"

Specifications are subject to change without notice.
*Final machine configuration requires either Platen Cover or ADF to operate.

Add Color in Seconds

Color print provides increased readability and retention. Color changes take seconds with no clean-up, no waste!

Sharp Photos, Lines and Text

Sophisticated image reading software automatically recognizes and separates line, text and photo/graphic areas. Additionally, using the Fine Mode feature allows for lines to be printed with even sharper clarity (300x400 dpi).
